

Mr Parente joins S.H.S. staff

by Lyle Kelsaw
S.H.S. has a new administrative assistant. His name is Mr. Ronald Parente.

Before taking on this job, Mr. Parente was an Assistant Principal at Dolan Middle School and a teacher at Rippowam High School. With 18 years in the system, he's an experienced addition to our staff.

Aside from school, he's very much a sports nut. He was head baseball coach at Ripp; he loves to play golf and stay in shape. Also in the off-season he referees hockey games. He even played professional baseball for the New York Giants minor league system.

When he's not in school helping a student, or on the baseball diamond working up a sweat, he's home taking care of his beautiful wife and two lovely children.

Even though he likes his new job a great

deal, he really misses his old teaching job, where he felt a certain closeness to the students. Now he feels the students will look at him as someone who can get them in trouble. He's really there to help them, and do his best to see that they make it through this difficult time as young adults. "I'm off to a great start" says Mr. Parente, "and I hope to keep it that way."

Junior Achievement

by Gwen Rothchild
Within the next few weeks Junior Achievement will once again get under way. But, what is Junior Achievement?

Junior Achievement is a national program designed to teach high school students the way businesses operate. Students set up their own small scale companies, and learn by doing.

The main objective is to make a profit by the end of the year. To achieve this, many things have to be done. First, stock is sold to get some money, then officers are elected and finally the company decides what product to produce and market.

Once this is determined, raw materials are bought and production gets under way. After some of the products are finished they have to be sold, since this is the only way to make money.

SENIOR CLASS PROPHECY

pictures could we tell that the girls were such name celebs as Sue Kelly, Tracey Redfield, Debbie Dimuro, Angie Bitzonis, Barbie Calyanis, Helen Lambri-nakos, and Janet Palmer. The photographers were killed mid picture, and two of them: Robin Guarino and Betsy Kirhoffer, died with their hands firmly grasping their cameras.

"In the television studio, Jim Kelley was busy shooting a new Mitchum Deodorant commercial. The can exploded in his hand. The metal bits from it inflicted much damage to those of the crew who were close by. But within minutes everyone had died from the lethal effects of the phaser emanating from the Klingon Starship.

"Next door in the movie studio, Kevin Kelly and Adam Liptak, the latter being a former record reviewer for Rolling Stone, were nearing the completion of their latest comic masterpiece, "The Life and Times of William Shakespeare" when, in the middle of a restaurant scene, the fatal phaser took its toll.

"Next we discovered the limp bodies of Tim Lea and Rob LaBlanc. Tim had been a patient of Rob's, Rob being the ship's speech therapist. Being too embarrassed to give his real name, Tim used the pseudonym John Holmes.

"As we were walking through the corridor to the ice rink we came upon the body of Morale Officer Susan 'Just Kidding' Morrison. She died with a smile on her face.

"The scene at the ice rink was horrifying to say the least. It was the first time I had entered the arena without hearing the familiar voice of Marty Baum, the ship's play by play man. And on the ice lay the bodies of our own sensational championship hockey team that had such greats as Gerry Vagnone, Kevin Garufi, Tim Weir, Paul Miolene, Dan Donnelly, John Mills, and Mike Diot. In the stands were many of their loyal fans, a few of them were still recognizable. They were: Carin Peskin, Kathy Gawlak, Sally Gehring, Marie Moses, Maria Rivera, Nancy Keefe, Lisa Bischoff, Laurie Blum, Jody Boginski, Mary Clemens, and Dave Mo-

ventured to was the strategy and tactics room. Inside Tony Milone, Rich Cesareo, Harold Fisher, Ray Manzella, Greg Bruno, Jim Buchanan, and Sam Oncea were discussing, as far as I could discern from the blackboard, their gameplan for the huge ball that was planned for the following Friday evening. These were the finest bouncers in the galaxy.

"In the adjacent room Peggy Jo Nocks, Sue Govan, Sue Brooks, Dayna Ayer, Sue Jenkins, Gloria Mandi, Marie McCall, Terri Mallardi, and Emma Pagliarulo were discussing dinner and entertainment arrangements until they died.

"The ball was to honor the championship SHS78 soccer team that flaunted such players as: Greg Sherwood, Nelson Abarzua, Bob Kordsiemon, Claudio Conte, and Steve Stenquist, all deceased.

"As we were vacating the room I spied a piece of paper. On it was the guest list. Of those honored with an invitation were the infamous theater owners Martin Nirschel, Willis White, John Colletti, and Steve Scharper. Also on the list were the famous marathon runners Tony Grajski and Roger Manning. To add even more glamor to the evening the entire ship's acting company was invited to attend the upcoming gala event. The actors and actresses need hardly be mentioned with such personnel as: Betsy MacInnis, Belinda Lopez, Amy Glica, Sherry Marlowe, John Tymula, Scott Morton, Tom Miller, Drew Makovsky, and Tom Guarnieri.

"On hand to cover this newsworthy event were going to be the wellknown news team of Jim Ginnity, and Shannon Matheny with their award winning technical crew of: Scott Fraser, Seth Gruber, Peter Hogan, Dan Forger, and Jim Cox.

"As we re-entered the hallway we were surprised to find Shelton Johnson walking in the opposite direction. What was surprising was that he was walking at all. We immediately took him to sickbay to run tests on him to find out why he wasn't dead like all the other members of the crew.

puter calculator. Since I was in sickbay anyway I thought that I would check and see how Hank Bromley was recovering from the total frontal love transplant that I performed using as subjects Hank and an Australian wombat. If I had been successful I would have created the most brilliant wombat and Rob LaBlanc would have had another patient along with Tim Lea, Oooooops! I mean John Holmes.

"I took out my communicator and reported my findings to Captain James Seay."

"Good job Dr. Wunderli. You can add ten more people to your list."

"Who?"

"Tim Rounds, Nancy Buck, Helen Coleman, Barb Gleason, Jennifer Hyland, Donna Longo, Mary Ann McKean, Lari-Jean Perna, Tracy Talentino, and Sandy Thomas all were just shot down in the space shuttle by Michael Napolitano, the Captain of the Klingon Starship."

"He got the whole softball team and their coach! That Napolitano will stop at nothing to get his sister's team in first place. Poor Gabrielle Napolitano has the biggest guilt complex, with her brother always killing off her competition."

"Continue with your search for our dead."

"Our next stop was the saloon. It was the day of the big drinking contest. All of the big drinkers were expected to make an appearance. Surprisingly it was here that we found the first happy sight of our depressing tour of the starship. Although the men we found were not too steady, they were alive and well. They included: George Searles, Tim Doherty, John Marini, Mike Wallach, Kirk MacLennan, Mike Coletto, Harold Clay, Chris Brainard, and Donald Burt. My immediate reaction was to assume

that the reason they were still alive was because of their large consumption of alcohol. But I had to be sure. Just as I had suspected the bartender, Chris Beadle, and the barmaids Vanessa Vaccaro and Laura Volpe were all dead. I quickly called my medical staff with the news of my

which my staff was always well stocked, to the sealed off portion of the ship that contained 200 alive but helpless members of our crew. My staff, that consisted of: Dale Feggins, Rob Cornelio, Rich DeBenedetto, Phil Farina, Mike Fenamore, Bob Kane, and Don Kapas had the entire ship intoxicated within minutes.

"Nurse Lynn and I had just one last place to visit and our trip through the shell of death would be over. The prospects for a happy ending were not promising, for our last stop was the swimming pool.

"As we neared the pool area we were appalled by the smell of the corpses.

"We found: Julie Dinnan, Mary Ann Finiw, Matt Haller, Muriel Iaco, Drew Makovsky, Victor Mera, David Morris, John Orgera, Marie Patusky, and Tom Quinn all happily dead in the diving pool and in the olympic swimming pool we found: Rich Shreifer, Marc Shay, Tom Smith, Ginny Thursland, Mike Valenti, Fernando Vivero, Karen White, and Sue Wolfe. Val Scutti, who we found in the infant pool, surprisingly didn't die from the Klingon phaser, but drowned.

"I relayed the complete list of dead crew members to the Captain, then reported back to sickbay."

"Dr. Wunderli?"

"Yes, Nurse Lynn, what is it?"

"Since we didn't drink any alcohol, why didn't we . . ."

"I see what you're getting at Nurse Lynn and to be perfectly honest, I haven't the slightest idea why we aren't as dead as all the others."

* * *

"Dr. Wunderli, are you there? Do you read me? Doctor!" Captain James Seay turned off his communicator and ordered two men to sickbay to check on the Doctor.

baseball '78

by Lyle Kelsaw
 "Hard work and a great team effort are the reasons for our winning season," says Coach Charlie Pike of the S.H.S. varsity baseball squad.

It was a struggle all the way, but with team effort it led to an outstanding season. Early season losses to Greenwich and Stamford Catholic hampered the Knights chances in the FCIAC, but they rebounded in the best tradition of Stamford High's Orange Crunch.

Starring for the 78 Black Knights were: Sam Oncea, catcher; Bob Davis, 1st base; Kevin Garufi, 2nd base; Joe Messina, 3rd base; Bob McDonald, shortstop; Conrad Wint, rightfield; Mike Price, centerfield. Tony Milone and Rich Schreffer platoon in left. On the mound were Steve Stenquist, Ron Jones, Nich Pia, Mike Buchetto. Coming off the bench were Rich Cesareo, Bill Velez and Joe Truglia.

"We got fine pitching," said Coach Pike. "Ron Jones and Steve Stenquist in particular, had fine records."

The team batting was outstanding with six

players in the top 20 most of the year. Joe Messina led the Knights in batting.

"The boys had a lot of determination and desire," said Coach Pike. Hard work paid off.
